

SPACE INVADERS GAME

Your job is to protect planet Earth. The digits of the following number are invading: 63418275. You must shoot the digits in ascending order. That is, you must first eliminate the 1, then the 2, then the 3, etc. For each digit, record the keystroke sequence which includes the 10". If the correct digit is removed, proceed to the next digit. If not, reenter the previous display and try again.
